

Highlights of the Week

We have started daylight savings that means more playtimes outside for us.

We have had fun learning about our five senses. The children are learning about hearing and how the ear works. We also listened to an awesome CD that played different environmental sounds, where the students had to guess what the sounds were.

The practical life and sensorial areas have been very busy, this is where the children refine their senses, develop concentration, and observe orderliness and cleanliness at times.

The older students have taken on the leadership role by showing our new students some of classroom materials.

There is saying that everyone is Irish on St. Patrick's Day! You see in the United States on St. Patrick's Day everyone wears some form of green. Legend says that each leaf on the clover means something the first is for hope, the second for faith, the third for love and the fourth for luck. On Friday we will celebrate by trying to catch our very own leprechaun because he has been up to mischief in our classroom.

Happy St. Patty's Day!

Dr. Maria Montessori's Words:

*"If help and salvation are to
Come they can only come from the children, the
Children are the makers of men."*

Reminders:

- Spring Break **March 30 through April 6 No Regular School** (Childcare available with extra cost **April 2nd through April 5th**)
- Professional Development for all staff **April 6 No School/No childcare**
- School resumes **April 9th**

Home/School Connection

This is the time of year that we learn to dress in layers. In Michigan we can experience winter and spring all in one day! The children are always removing layers of clothing. Please take note of this and make sure that your child has all clothing labeled. We have several water bottles that are not taken home at the end of the day. Please make sure to take your child's water bottles home and wash it because they can breed bacteria. We want to insure that we all stay healthy!
