

Highlights of the Month

Dear Schoolhouse Families,

As May comes to an end we want to thank our Kids Club parents for making this month so magical for the children! Our mothers day celebration was beautiful and would not have turned out so wonderfully if it wasn't for your presence! The May Day mixer was also a hit! Thank you for encouraging a green thumb and healthy planet in the children, we shared a great day of plants, treats, and heat- That sounds a lot like the Zoo trip as well! Now as we move forward into June we hope future events like our music concert, fathers day, and last day of school are just as pleasant for the students, leaving them full of stories to take to kids club! In kids club we have been just as busy!

Science- Ms. Poirier had the children make blue play dough! We did tons of videos and hands-on learning activities to intrigue the students and fill their minds with science! We learned how soap, watercolors, and milk interact, a little about the North Star, and how to make Oobleck!

Art- Art projects have been lead by Mrs. Lapalikar this month, the kids have had plenty of fun painting and working with tools to make windmills, cherry blossom trees, and ending the month with an American flag for memorial day! We hope you have enjoyed each and every art project brought home as much as we have!

Theatre- Ms. Postek had the children live as goldilocks for one day! We read and watched the story of Goldilocks and the Three Bears, afterwards each child went through a set of props testing each chair and bed, as other students watched. It was a fun interactive exercise that also allowed the students to explore their vocabulary. Ex. "This chair is too hard.. This chair is too slippery... This chair is just right!

Gym- Ms. Arbel Lead the children through yoga exercises on weeks it was too hot outdoors to do gym on the playground, however we still had week of gym outside to use our parachute! The children also did games and obstacle courses even "musical hoops" one day!

Sign Language- Our Students have practiced the alphabet and names!! Ask your child what they remember! We also learned keywords to correspond with holidays throughout May.

Thank You for choosing Kids Club, we will do everything we can to keep your child happy and safe!

Dr. Maria Montessori Words:

"Growth comes from activity, not from intellectual understanding".
