

Hi! I am Ritu Jain, and I have been a part of the Schoolhouse Montessori family for about 7 years. I started as an assistant teacher and am currently working as an admission coordinator. I fell in love with the Montessori schooling pattern since I enrolled my daughter into preschool. Within a few weeks of my daughter attending I was sure that this is the perfect choice of schooling for any child's mental, physical, emotional and social growth.

I have graduated with a Science major and partial Masters in Chemistry. Additionally, I have completed a post-graduation diploma in Computer Applications and Paraprofessional Certification. I'm happily married with an amazing husband and we have a beautiful daughter, who is a senior this year at Rochester High School.
