

I would like to take this opportunity to introduce myself. My name is Kavi Antony Robert. I have dedicated the past seven years of my career to working in the educational sector. Where I have gained valuable experience and contributed to the development of young minds. I hold a bachelor's degree in commerce and MBA with a specialization in finance, which have provided me with a strong foundation in both academic and financial disciplines.

I am also a proud parent of two wonderful daughters. My elder daughter is currently a Junior at International Academy East, and my younger daughter is in 7th grade at Boulan Park Middle school. Balancing my professional life with my responsibilities as a mother has been a rewarding journey. I feel truly blessed to have a supportive and loving family.

I am happy to assist and support you and your child. It's a pleasure to work under **Dr. Perry**, our director, who leads our team with great dedication.
